GLEN BROTHERS,INC.

ESTABLISHED 1866 ROCHESTER, N.Y.

FURNISH THE HOME-OUTDOORS

WHEN ORDERING PLEASE NOTE

- TERMS: Cash. For customers of established credit accounts will be opened, due in 15 days from date of invoice. Orders for C. O. D. shipment must be accompanied by one-fourth the amount.
- GRADE: We supply a standard grade of stock but when unusual specimen material is selected at the nursery an extra charge will be made to fit value.
- GOODS IN TRANSIT: All prices are F. O. B. Rochester, N. Y. or Fairport, N. Y. and include all packing charges.
- SHIPPING INSTRUCTIONS: State whether by freight, express, or parcel post the exact destination. Freight and Express shipments are forwarded charges collect. Parcel Post shipments are sent C. O. D. for parcel post charges even in cases where the contents are shipped on open account.
- CLAIMS, SHORTAGES OR DISSATISFACTION must be made immediately upon receipt of goods. Any mistake or fault on our part will be gladly rectified.
- PLANT INSURANCE: We assume no risk after delivery to Transportation Company in good condition as we have no control over plant material after it leaves our hands and we do not guarantee its life or replace without charge. We do replace material that dies the first year at ½ price.
- PLANTING SEASON: Spring season begins as soon as the frost is out of the ground usually about March 20th, and continues until mid-June although Evergreens and Perennials can be successfully planted until early July. Fall season, Evergreens can be transplanted from early August until late November. Perennials during September and October, deciduous fruits and ornamentals from mid-September to early December.
- GUARANTY: While we use every precaution to have each tree and plant absolutely true to name and according to label, if it is proved that stock is not true to name by error on our part we will replace such plants immediately free of charge and it is agreed between the purchaser and ourselves that we shall not be held for an amount greater than the purchase price of the stock.

RELIABILITY

For more than seventy years "From Glen Brothers Inc." has been a guarantee of first quality stock, true to name, handled and packed right, delivered to customers in the best possible condition. We point with pride to the ornamental trees and shrubs in private and public grounds, parks and streets; the roses and plants growing and blooming in garden and house, the beaming orchards in every fruit locality for evidence in regard to how well we are succeeding in our endeavor to produce the best.

Located near the shores of Lake Ontario with wide variations of temperature, at times 15 degrees below zero, the conditions are extremely favorable for the production of hardy, robust trees and plants. These conditions—with the soil best suited to produce the healthiest conditions of growth, namely that solid, firm texture of the wood, with abundant fibrous root, so necessary to successful transplanting—enables us to offer the choicest nursery stock with entire confidence to planters in all sections of the country.

Our experience of more than seventy years has taught us that good cultivation is of supreme importance, hence we spare no pains or expense to maintain the highest efficiency in this direction.

To the planter or purchaser of nursery stock, at least three things are indispensable; first: varieties true to name; second, healthy, vigorous, well-matured trees or plants; and third, careful and judicious packing, without which all may be lost.

We give to our packing and shipping careful, personal supervision. And still further to protect our patrons, as well as ourselves, against loss in this direction we employ the most skilled and competent hands to assist us.

Plant Our Trees and Plants and in 3 Months Your Place Will Look As if Planted 3 Years.

We Grow Trees and Plants To Produce Immediate Effect. OUR COMPLETE LANDSCAPE SERVICE

Creating pictures with Evergreens, Trees, Flowering Shrubs and plants is the only adequate description which can be given the highly developed and experienced service of our Landscape Architects. In the creation of such effects we not only aim to develop that peculiar charm which will best express a natural beauty and make it harmonious with the house, the grounds and the surroundings but especially to create those beautiful landscape pictures which will fascinate throughout the entire year.

While builders of new homes are conscious of the need to engage Architects in the development of beautiful designs, it is unfortunate to observe the very large number of instances where the possibilities of an exterior setting of an otherwise carefully designed and attractive house have been entirely ignored, or the grounds have been planted in a "hit or miss" manner. To individuals possessing good taste the sight of a charming English cottage set in a wealth of crimson Cannas edged with equally crimson scarlet Sage must not only be ludicrous but painful as well.

To make possible the preparation of a Landscape design which would catch the proper spirit of the architectural style of the house and translate it together with its surroundings into a charming landscape composition was the very definite purpose given to the selection and organization of the personnel behind the Glen Landscape Service.

Since we are primarily Nurserymen interested in the sale of trees and plants and not in the sale of Landscape designs, we are in a position to offer the services of our landscape architects at a very low cost to our clients in connection with the planting of our plant material, for example, we prepare comprehensive plans for as low as 10 per cent. of the estimated cost of the material necessary for the proper execution of said plan and this small fee is credited when the order for the planting material is received, hence in case we supply the planting material there is absolutely no charge for the plan.

"Glenwood grown" Evergreens, Ornamental Trees, Rhododendrons, Flowering Shrubs, Perennials, Roses, Vines, etc. are the finest that anyone could possibly grow or procure anywhere.

Let us get in touch with you today. Some member of the firm personally will come and talk with you. We have found this to be the only way to most effectively cooperate with our customers. Write us and we will arrange an appointment to suit your convenience. Once the outline of the work is agreed on, we will do the rest.

Spirea VanHouttei

DELIGHTFUL FLOWERING SHRUBS FOR THE HOME GROUNDS

Our Shrubs are well established, two to three years old, well branched, well rooted. Most of our shrubs are grown expressly for landscape purposes to give immediate effect. In the following list may be found shrubs producing a great range of color and flowers. There are shrubs with green foliage, yellow foliage and red foliage. Some produce foliage that take on particularly delightful colorings in the Fall. Others produce gorgeous berries, red, white and black. Make your selection from the following list. QUALITY CONSIDERED our prices are as low as those of any other Company.

HOW LATE CAN I PLANT NURSERY STOCK IN THE SPRING?

This is the question that comes up every Spring during the month of May, after the first few warm days have come and made the buds swell. Dormant nursery stock may be planted with safety throughout the United States and Canada even late in the Spring. We keep our stock dormant by special methods until late in May. Last year our stock was dormant and we shipped until about the 10th of June. Our advice, however, is to place your order as early as possible. The earlier you plant, the longer the growing season.

CELASTRUS SCANDENS (American Bitter- Orange-yellow capsules that display crimson seeds	sweet Fine	t).

CLIMBING AMERICAN BEAUTY. Large rich rosy crimson. Very fragrant.

DOROTHY PERKINS. Shell pink flowers borne in large clusters.

CRIMSON RAMBLER. Flowers small, double, brilliant crimson.

EXCELSA (Red Dorothy Perkins). Intense crimson pink, tinged scarlet.

JACOTTE. Orange yellow tinted coppery red.

PAUL'S SCARLET CLIMBER. Brilliant dazzling red.

DR. VAN FLEET. Deep pink. Very fragrant.

TAUSENDSCHON. Colors vary from pink to white.

POLYANTHA OR BABY RAMBLERS.

\$1.00 \$9.00

BABY RAMBLER CRIMSON. Crimson red color, borne in clusters.

BABY DOROTHY. Bright pink in large corymbs. Rapid grower.

GLEN'S GORGEOUS ROSE BED IN BLOOM ALL SUMMER SIZE 18 x 3 FT.

If you have a small area in your yard, size 18x3 ft. that you desire to turn into a beauty spot this summer and every summer for years to come, here is how. Spade up a space in your yard like this

then plant the following Everblooming varieties of Roses and plant according to number. The number before each variety refers to the number on the plan, and all twelve plants for only \$5.50. All plants 2 years old and will bloom this summer.

- 1. ETOILE de HOLLANDE. Brilliant crimson red. Finest of all red roses. The blooms are wonderful and fragrant.
- 2. DAME EDITH HELEN A magnificent fragrance, full bodied new rose of richest pink, blooms full, many petaled and intensely fragrant. A beauty.
- 3. MME. EDOUARD HERRIOT. Winner of the \$50,000 prize offered by the London Daily Mail. Coral red buds shaded yellow, copper-orange and tinted yellow and scarlet. This rose has a beautiful bud, exquisite colorings, long and continued blooming. Fragrant.
- 4. PRES. HERBERT HOOVER. A glorious multi-colored rose that became popular over night. Color: vivid cerise-pink, softly flamed with yellow, orange and scarlet.
- 5. E. G. HILL. Large deep crimson, blooms in abundance throughout the season. We regard E. G. Hill as an outstanding red rose.
- 6. MRS. P. S. DuPONT. A great prize-winning rose. Clear yellow with orange-yellow heart. Long lasting blooms all summer and Fall. A great beauty.
- 7. KAISERIN AUGUSTA VICTORIA. Full double flowers; delicate creamy white; deliciously fragrant.
- 8. LOS ANGELES. One of America's finest two-tone roses. Flowers large and continous in color; flame pink toned with coral and shaded with translucent gold at the base.
- 9. MARGARET McGREDY. One of the showiest of all roses. Rich Oriental red, passing to carmine-rose. Blooms all season. Spicy fragrance.
- 10. ROSLYN. Orange buds; full gold and yellow flowers, with deeper center.
- 11. PINK KILLARNEY. Intensely brilliant, clear pink. The flower is perfect.
- 12. TALISMAN. The most gorgeous assemblage of colors in one flower ever presented by a rose. Gold apricot-yellow, blood orange deep pink and old gold. Very fragrant and probably the most popular rose in America today.

Perennials. Make your garden a riot of color all summer

HARDY HERBACEOUS PERENNIALS

A careful selection of this list will give you a riot of color from early Spring until late Autumn. Perennials are planted permanently and each succeeding year adds to the vigor of the plant and new flowers will appear each year with greater strength and beauty.

Prices of all Perennial Plants except where otherwise noted: 3 for 75c; \$2.25 per 10; \$20.00 per 100.

Approximate height variety attains is given after the name.

Illustrated 2 of our North China Strain Chinese Elms planted 5 years ago when 4 ft. tall. These trees now are 40 feet tall and are planted in front of the residence of Dr. Clarence Thomas, Greenfield Lane, Rochester, N. Y.

OUR NORTH CHINA STRAIN CHINESE ELM

If you want quick shade—it's THE TREE to plant. It's the fastest growing tree we know of—having none of the undesirable root characteristics of the Poplar—IT'S STRICTLY AN ELM.

IT IS AS GRACEFUL AS A CUT LEAVED BIRCH AND AS HARDY AS AN OAK. GOOD FOR STREET PLANTING, WINDBREAKS, SCREENS OR AS INDIVIDUAL SPECIMENS ABOUT THE LAWN.

Mrs. Baas Farguhar, 1136 Calhoun Ave., Bronx, N. Y., writes:

"There is not a tree to compare with the Chinese Elm for swift growth, beauty of leaf, shade and marvelous to look at. I think it is one of God's prettiest trees. You promised it would grow 20 feet in 4 years. It grew 26 feet in 4 years and what a beauty it is."

Mrs. J. W. Baillie, 16558 Kentucky Ave., Detroit, Mich., writes:

"Two Chinese Elms purchased from you, one in 1930 and the other in 1931 are large trees and the wonder of the neighborhood. This is surely the tree to plant if you want shade in your own lifetime."

Babylonica Willow

DISTINCTIVE AND BEAUTIFUL WEEPING WILLOW

This is the common Weeping Willow. It is hardy, grows rapidly and is a valuable and interesting tree both on account of its graceful aspect, showy catkins and bright bark. Attractive for planting beside creeks, ponds, pools and other waterside planting, although equally satisfactory in dry locations. Babylonica Willow has long lacy whiplike branches weeping to the ground. It is one of the most remarkable trees. The leaves are narrow, tapering to a long point and bright green. The bark is particularly handsome in winter. Owing to its irregularity of growth in the nursery row all our trees are carefully staked to insure a straight trunk with a nice full branched weeping head. We can offer these trees in 2 sizes:

GLEN'S SPECIAL LAWN GRASS SEED

We offer you in the Special Lawn mixture the last word in high grade lawn seed. It produces the heavy velvety lawn that is your great desire. This mixture is carefully inspected and kept free from weeds that are so injurious to the lawn.

Price: 1 lb., \$.50; 5 lbs., \$2.25; 25 lbs., \$11.00; 100 lbs., \$42.50.

CONIFEROUS EVERGREENS

A planting that depends entirely upon deciduous trees for ornamental effects is sure to have a bleak appearance during the winter months. Our evergreens have been transplanted, they are amply spaced in the nursery and lifted with a solid ball of dirt which insures success in transplanting. All evergreens are carefully packed for shipping, each layer or tier when packed in the box is securely cleated to prevent the plants from shifting in transit. We guarantee safe delivery of all evergreens purchased from us.

SUPER-SIZE FRUIT TREES

TREES FULLY FOUR YEARS OLD—SEVEN TO NINE FEET TALL—BEAUTIFULLY ROOTED—HAND-SOMELY BRANCHED

It takes work, time and money to produce them and we have spared neither. Inquiries for these older and larger trees are becoming more numerous each year. These inquiries make it evident that many people prefer older and larger trees for quicker results. Hence to supply this increasing demand, we are now growing a much larger stock of SUPER-SIZE TREES than formerly.

\$1.75 Each \$16.50

\$16.50 per 10

\$160.00 per 100

VARIETIES OF SUPER-SIZE FRUIT TREES APPLES

BALDWIN: Large, deep red, crisp and juicy; vigorous grower; heavy bearer. November to March.

DELICIOUS. Ranks high as a variety for commerical or home orchards. Large, brilliant dark red; flesh fine-grained, crisp, juicy. Nov. to Feb.

FAMEUSE (SNOW). Medium size, bright red, flesh white, juicy. October.

GRAVENSTEIN. Large; yellow overlaid with red; juicy, productive. Sept. to Nov.

McINTOSH. Large; deep red flesh; crisp, tender, juicy. October to December.

NORTHERN SPY. Large, bright red, spread with delicate bloom; flesh tender, rich, delicious. November to March.

APPLES—4 years old—continued.

RED ASTRACHAN. Large; deep crimson; juicy. August.

RHODE ISLAND GREENING. Large greenish vellow; flesh tender. December to April.

TWENTY-OUNCE. (Cayuga Red Streak). Very large; yellow splashed with red. October.

WEALTHY. Medium to large; deep red, juicy. October to January.

YELLOW TRANSPARENT. Medium size; pale yellow; good. July and August.

SWEET CHERRIES

BLACK TARTARIAN. Very large; black, tender.

DIKEMAN. Large; black.

GOVERNOR WOOD. Large; light yellow, shaded and mottled with light red.

LAMBERT. Very large; dark purplish red, turning to almost jet black when fully ripe.

ROYAL ANN. Very large; pale yellow, spotted and shaded with deep red.

PEARS

ANGOULEME. Large: greenish yellow, splashed with russet; a good bearer.

ANJOU (Buerre d'Anjou). Large, handsome, greenish yellow, with a dull red cheek on the exposed side; flesh fine grained.

BARTLETT. Large; waxen yellow with red blush, buttery, very juicy and high flavored.

CLAPP'S FAVORITE. Very large; yellowish green to full yellow, rich.

KIEFFER. Large; very handsome; rich yellow, tinged with red, excellent when canned.

PLUMS

BRADSIfAW. Very large; dark violet-red.
BURBANK. Large nearly globular; clear cherry red, sweet,
meaty and quite firm.
GERMAN PRUNE. Large. oval, dark purple.

LOMBARD. Medium size; violet-red.

OCTOBER PURPLE. Large, round, purple.

RED JUNE. Professor Bailey says: "By all odds the best Japanese Plum." Large, brilliant red.

YELLOW GAGE. (Prince's Yellow Gage). Large, oval, golden yellow, slightly clouded; flesh deep yellow, rich, sugary, melting.

WHY THE TREES AND PLANTS FROM GLENWOOD NURSERY ARE OF SPECIAL IMPORTANCE TO YOU

- THEY ARE DEPENDABLE. Every possible care is 1. taken to have the stock that leaves this Nursery true to name and description.
- 2. THEY ARE HEALTHY. We take extraordinary precautions to keep all our trees and plants entirely free from disease.
- THEY ARE VIGOROUS. Ample space has been given each tree or plant in the Nursery; where it has been necessary, we have pruned; we have fertilized; we have 3. sprayed —to make our stock vigorous and sturdy.

RASPBERRIES

LARGEST SIZE PLANTS—GUARANTEED 2 YEARS OLD

Prices except as otherwise noted: \$1.00 per 10; \$7.50 per 100; \$60.00 per 1000

Varieties

CHIEF. Bright red, flesh firm, juicy, med-ium sweet. Quality high. COLUMBIAN. Dark red, rich, juicy, of exceptional quality.

BERLAND. Large black raspberry. Berries glossy, firm. Perfectly hardy. CUMBERLAND. Very productive.

CUTHBERT. Deep rich crimson. Excellent quality. Vigorous. ERSKINE PARK (Everbearing Red Raspberry). Pick berries all through the summer and autumn. Erskine Park commences to bear in July and continues to produce large luscious fruit until Fall.

GOLDEN QUEEN. Large beautiful amber color. Immensely productive and very hardy.

HERBERT. Extraordinarily large, oblong, rich and handsome.

Sweet and

Very sweet and juicy.

HONEYSWEET. A distinctive black raspberry. Sweet and delicious. Fruits in July.

LATHAM. Yields twice as much as most other red raspberries.

It is absolutely hardy. Due to its rich brilliant red color it sells readily as more between it sells readily on market stands.

Special Price

not crumble.

THE PRICES quoted herein for trees and plants are fixed after careful, painstaking computation of the exact cost of production, and are made to fit the quality of "Glenwood Grown" stock and allow ourselves a fairly legitimate margin of profit. We are not controlled by the prices of other nurserymen which in many instances are the result of haphazard guess-work, and the goods must necessarily be of a quality to fit the price, for no one will continue to sell goods at a loss.

WANT TO MAKE SOME MONEY? PLANT

LATHAM THE BIG RED RASPBERRY

SENSATIONAL IN YIELD AND PROFIT 5430 QTS. PER ACRE — \$1629.00 PER ACRE

The superior yielding ability of Latham is fairly represented by the following comparative figures. Reprinted from the Connecticut Agricultural College Review, September 1925. W. H. Darrow, Fruit Specialist:

Report on 3 year old Field: LATHAM 5430 qts. per acre. Herbert 3648 qts. per acre. Cuthbert 3600 qts. per acre. 5430 QTS. PER ACRE at 30c per qt., makes the neat return of \$1629.00 PER ACRE.

Latham is so good that we will pay \$1000, cash for the exclusive selling rights of any new raspberry that is superior to Latham in hardiness, bearing qualities, size and color.

FROM THE "GARDENER'S CHRONICLE"

Harold M. Bryant in Gardener's Chronicle. "The Latham is without doubt the best red rasp-berry for the grower to plant today. It has proven entirely hardy in the Dakotas and the northwest. It is a splendid cropper, bearing fruit the largest and firmest I have seen of any variety and holding the size throughout a long picking season. It is a pleasure to pick berries of such size and of delectable appearance."

EASY TO GROW: Latham Raspberries can be easily grown in the home fruit garden and they require little care.

Set Plant 3 feet apart in rows 6 feet apart

FOR ONE ACRE ORDER 2420 PLANTS—Cost \$96.80

FOR ½ ACRE ORDER 1210 PLANTS—Cost 48.40

CONOVER'S COLOSSAL. Large size, remarkably tender and high flavored. Vigorous grower, sending up from fifteen to twenty sprouts each year from one to two inches in diameter. Color deep green and crown very close. Can be cut one year sooner than the other varieties.

MARY WASHINGTON ASPARAGUS, is the first result of a

MARY WASHINGTON ASPARAGUS, is the first result of a blister proof campaign for the eradication of asparagus rust and is as far as possible an extremely resistant, vigorous and high yeilding strain of giant asqaragus.

PALMETTO. An extra early variety, tender and of good flavor. Productive.

EXTRA SPECIAL

Extra Large—fully 3 year old Asparagus roots PEDIGREED ASPARAGUS—MARY WASHINGTON MAMMOTH 3-YEAR-OLD ROOTS

The great Mary Washington developed by the United States Department of Agriculture is in our opinion the best strain of Asparagus known. Our seed came from the Pedigreed Seed Company. Planted in the Spring of 1933. The roots have now had three summers' growth. They are very large and produced stalks sufficiently large enough for cutting last year, in fact our employees supplied their own tables from these plants for a number of weeks. Two years ago we sold these extra old, extra large plants at \$7.00 per 100. As we want to use this particular piece of land for new planting we decided to dispose of this entire lot of plants. Spring or Fall is an excellent time to prepare an Asparagus bed and by planting this Spring you gain a year.

\$5.00 per 100 \$45.00 per 1000 (No order accepted for less than 100 plants at this price).

We grow grapes by the mile at Glenwood Nursery

GRAPES FINE TWO YEAR OLD PLANTS

Each Per 10 Per 100 2.25 .2520.00

BLACK GRAPES

CAMPBELL'S EARLY. Bunches thick. Large round berries. Sweet profuse bearer. Hardy. Very early.
CONCORD. Bunches large and compact. Berries large; Pulp juicy and sweet; Vine very hardy and equally productive. IVES. Bunch extremely large, compact, handsome. Berry large, tender, juicy, rich, sweet without pulp. Hardy.
McPIKE. Bunches large and compact. Pulp tender and juicy. MOORE. Bunches large, berries large, round, black with a heavy blue bloom. Vine very hardy withstanding temperatures of 20 degrees below zero. Maturing 20 days before Concord.

WORDEN. Bunches large and handsome. Vine healthy and hardy. A seedling of Concord, ripening a few days earlier.

RED GRAPES

BRIGHTON. Bunches large, compact. Berries rich wine-red.

Pulp tender, almost seedless. A superior variety.

CATAWBA. Bunches large; berries large of a coppery red color.

Pulp juicy, sweet. Very productive. An excellent table and wine grape

CATAWBA—CONCORD. Berry sparkling light red; pulp ten-

der, juicy, sweet.

DELAWARE. Bunches small, compact, berries rather small, round, light red, pulp juicy. Profuse bearer.

JEFFERSON. Bunches large; berries bright red, medium to large. Fine market grape.

LUCILE. Bunches very large and compact. Berries large, pulp sweet. Vine hardy, healthy and bears tremendous crops.

WHITE GRAPES

DIAMOND. Bunches large, handsome, compact. Berries large, delicate greenish white with rich yellow tinge when fully ripe. Pulp tender with few seeds. Ripens a few days before Consect.

fore Concord.

GREEN MOUNTAIN. Bunches long, compact; berries oval, greenish white. Pulp tender, juicy, sweet and rich. Very productive.

NIAGARA. Bunches large, uniform and compact. Pulp melting, sweet. Vine strong grower and very hardy. An excellent grape for either home or market garden.

For Those Who Prefer EXTRA LARGE 3 YEAR OLD GRAPE VINES

BIGGER — BETTER — OLDER GRAPE VINES

and as fine and as popular a list of varieties as you will find in the East

Each Per 10 Per 100 .50 4.50 40.00

Varieties

- AGAWAM. Red or copper color. Meaty, juicy of a rich peculiar aromatic flavor. One of the best. Season about the same as Concord.
- BRIGHTON. Flesh tender, whitish, sweet with scarcely any pulp. Separates readily from the seeds. Very choice as a table grape.
- CATAWBA. Dark red of finest flavor. Best quality for both table and wine.
- CONCORD. Leading commercial grape of America. Black, early, tender, juicy, sweet. The Concord makes a light red wine which is very palatable.
- DELAWARE. Berries small. Juicy, very sweet. The very best quality for both table and wine and the flavor and quality is unsurpassed.
- LINDLEY. A red grape of the best quality. Tender and sweet and high aromatic flavor.
- NIAGARA. White. Bunches very large and handsome, melting, sweet with a flavor and aroma peculiar of its own.
- WYOMING. Sweet, early, coppery red. A wonderful grape for both the garden and the vineyardist.

Eight varieties that will suit every taste. Planted this Spring should fruit next Fall.

The Boysenberry—it speaks for itself

IMMENSE NEW BOYSENBERRY

The Boysenberry was developed from three blackberries of unknown origin together with Cuthbert Raspberry and the Loganberry. All of these berries are hardy. Boysenberry has been exposed to 15 degrees below zero during the past winter and not killed while other brambles around them have been completely frozen. The Boysenberry has a distinctive flavor all together different from any known berry. If the Boysenberry is permitted to remain on the vine until fully ripe it is much sweeter than any other vine berry. When eating fresh no sugar is necessary because it has a very high sugar content. No vine berry can compare with its delicious flavor when made into jam, jelly, marmalade or canned. There is no trick photography in the picture on this page. This picture was taken with a rule beside it and therefore they are actual size. Frequently the berries are found 2 and a half inches long and eighteen berries have filled an eight ounce box and weighed nearly eleven ounces. In California the Boysenberry has produced 13,000 pounds to the acre.

Price for No. 1 two-year transplants \$2.50 per 10 \$20.00 per 100 \$150.00 per 1000 Price for No. 1 two-year transplants \$3.50 per 10 \$30.00 per 100 \$250.00 per 1000

Let Our Landscape Department Solve Your Planting Problems for You

Ever notice the difference in attitude toward furnishing the INSIDE of the house—and furnishing the OUTSIDE? It's a curious study in psychology —the working of the mind. FOR INSTANCE—The house cost \$8,000—lot cost

\$2,500—Total \$10,500.

INSIDE,	owner	spends—
---------	-------	---------

Living Rooms—Rugs, chairs, davenport,	
books, etc.	600.00
Piano, Victrola or Radio, pictures,	
curtains, etc.	1,000.00
Three Bedrooms—Furniture, bedding,	
rugs, etc., each \$300	900.00
Dining Room—Table, chairs, linen	
silver, china, etc.	300.00
Kitchen—Range, crockery, utensils,	
laundry, etc.	200.00

Total—a moderate estimate for a modern home\$3,000.00 Nothing unusual, nothing remarkable, nothing to get excited about.

OUTSIDE, owner invests—(too often)—

Lawn—scratched in—seeds and labor\$	75.00
Geraniums—from the neighbors	Free
Roses and perennials	15.00
Shade Trees	12.00
Fruit Trees	6.00
Flowering Shrubs and Porch Vines	11.00
Miscellaneous small plants—(perhaps)	6.00

Total—(and he thinks it a good job).....\$ 125.00 Nothing unusual, nothing remarkable—except that it doesn't look as cheap as it really is.

Indoors, \$3,000—Outdoors, \$125. Is that justice to

the home?

SUPPOSE—The owner would ask our Landscape Dept. to change his property into a Picture. Change his house into a Home. We might ask \$100 to \$1,000 for the job—and right here the average man goes clear up in the air; but—

Let's See—THE CONTRAST five years later. Busi-

ness makes it necessary to move. He sells out. The Household Goods—if he is lucky—sell for

\$1,000. Loss \$2,000. The House and Grounds—beautifully planted—sell for \$14,000. Gain \$3,500.

HERE IS OUR POINT

Indoor Furnishings are Expense—wear out, never return outlay.

Outdoor Furnishings are Investment—increase in value yearly.
